TIBCO Spotfire for Developers Manuel Xavier

In Detail

Given the amount of competition and the recent economic downturn, corporations have to provide the best services in the most efficient way. Analytics help businesses understand behaviors and patterns, identify and minimize waste, and provide process visibility. Spotfire is a latest generation Analytics Dashboard that enables the representation of relevant data in an intuitive fashion, fostering both rich visualizations and shortened analysis. It allows the highlighting and discovery of not only commonalities and anomalies but also relationships, all in reduced timeframes.

An introduction to the TIBCO Spotfire world, covering the main concepts and features of the platform in a very fast-paced style. From the installation procedure to the loading of heterogeneous data and the creation and manipulation of several visualization types, you will gain hands-on experience with this very powerful analytics tool.

Starting by introducing you to the platform and its architecture, this helpful guide will show you how to install a standalone working environment. You will then learn about data loading and visualization creation, using several graph types, and also journey through the features of filtering, data preparation, transformation, and layout definition. Finally, you will master library creation and deployment, as well as web player usage. With this book, you will become familiar with all the required functionalities and concepts to start working with the Spotfire technology.

Approach

A fast-paced, step-by-step guide to creating, manipulating and deploying analytical visualizations using the TIBCO Spotfire Platform

Who this book is for

If you are hoping to discover a fast and easy way to develop business intelligence apps with TIBCO Spotfire, this book is ideal for you. You are expected to know the basics of business intelligence, but no prior knowledge of TIBCO Spotfire is required.
