*You see, people forever say history is written by the victors. It's not. It's written by those who can shape the simplest narrative.*

David is a man struggling to hold together his marriage when the small town he lives in is rocked by the sudden, untimely death of a local girl. As details are uncovered, rumours and talk take hold of the town, and start to force David to revisit old memories.

Set in 1960s Ireland, *Before Monsters Were Made* tells the story of how a few small words can have a very big impact. When suspicion and old stories start to spread like a virus, how well do we know the people we trust the most? Can we ever know what goes on inside other people's lives? And do we really want to?

*Before Monsters Were Made* is an unnerving and moving thriller about loyalty, lies and love.
