From the rear cover of this 120 page book: "The recent strong revival of interest in needlepoint lace has resulted in correspondingly large demand for new designs and ideas, particularly those involving flowers. To meet some of this demand here is a book packed with ideas and designs supported by clear instructions and beautiful photographs. Beginning with introductory chapters encompassing such techniques as enlarging and reducing patterns, laying the cordonnet, preparation of the foundation material and instructions on how to work all the basic stitches, the author then provides patterns for such items as an evening bag, cushion cover and brides' and bridesmaids' head-dresses. Also included are a number of floral designs which can be produced by using the different shading techniques. Altogether, there are over 30 patterns and designs most of which are accompanied by working diagrams and enlarged photographs of the finished lacework, clearly showing stitch formations and the overall composition. This approach ensures that the book can be used by beginners or by more experienced needlelacers needing new designs to develop their skills."
