The Great Hall of Dinosaurs: An Artist's Exploration into the Jurassic World William O'Connor

Science and Imagination Collide!

The Great Hall of Dinosaurs is an illustrated guide to studying and drawing dinosaurs from the best-selling author of the *Dracopedia* series! Astounding dioramas of the world's biggest, fiercest and fastest creatures line the halls, from a lumbering family of grazing triceratops and a gnashing T-rex to a duo of swift-footed carnosaurs. History's "terrible lizards" are more than a thundering Hollywood nightmare. William O'Connor brings these beautiful and complex beasts to life through accurate illustration based on the anatomical and scientific knowledge of contemporary paleontology. But in *The Great Hall of Dinosaurs*, our imaginations are not limited by science: We can dream of worlds and scenes that may have existed millions of years ago, of animals we have never seen before, using nothing more than a simple no. 2 pencil and some paper.

- Learn the basics of scene setting. Create believable natural dioramas with depth, dinosaurs and detailed Mesozoic ecosystems in which your creatures could live and hunt, such as mountains, forests, deserts and seashores.
- 16 complete step-by-step demonstrations. Build your drawings from initial composition and thumbnail sketching to completed piece through color conceiving, underpainting, texture development and more with both digital and traditional painting techniques.
- Master dino morphology. Each demonstration offers a description, history, biological diagram and skeletal composition of the most popular dinosaurs, including personality traits, diet and dates of fossil discovery.
- Glossary of prehistoric terms.
