Citrix XenServer 6.0 Administration Essential Guide Daniele Tosatto

This is a practical, concise step-by-step tutorial with screenshots for carrying out tasks showing you how to manage and administer a XenServer in your business. The author brings his own extensive knowledge of XenServer. The book is full of best practices and tips that will help you benefit from the author's experience in working with XenServer. If you are an administrator working on XenServer, this book is for you. The book assumes that you have a basic understanding of XenServer administration, but need not have working experience with XenServer. You must be well aware of virtualization concepts as the book does not cover that. IT consultants, service providers and architects, who want to approach XenServer as a virtualization platform will also find this book useful.
