## **Understanding the Planetary Myths** Lisa Tenzin-Dolma

The relationships between these deities sheds new light on the subtle interpretations of your natal charts. Myths and stories provide a form of information that is easily and naturally assimilated. This book is intended to be an informative and interesting guide to the myths that underpin the principles of the planets in astrology and to explain why each has its own symbolism in the study of astrology. In each chapter the myth is told in story form. This is followed by the symbolism of the archetype and a description of the traditional qualities embodied by the planet or asteroid when interpreted in a natal chart reading.
