Data Mining: Know It All

Soumen Chakrabarti, Earl Cox, Eibe Frank, Ralf Hartmut Güting, Jiawei Han, Xia Jiang, Micheline Kamber, Sam S. Lightstone, Thomas P. Nadeau, Richard E. Neapolitan, Dorian Pyle, Mamdouh Refaat, Markus Schneider, Toby J. Teorey, Ian H. Witten

Data Mining: Know It All Soumen Chakrabarti, Earl Cox, Eibe Frank, Ralf Hartmut Güting, Jiawei Han, Xia Jiang, Micheline Kamber, Sam S. Lightstone, Thomas P. Nadeau, Richard E. Neapolitan, Dorian Pyle, Mamdouh Refaat, Markus Schneider, Toby J. Teorey, Ian H. Witten

This book brings all of the elements of data mining together in a single volume, saving the reader the time and expense of making multiple purchases. It consolidates both introductory and advanced topics, thereby covering the gamut of data mining and machine learning tactics ? from data integration and pre-processing, to fundamental algorithms, to optimization techniques and web mining methodology.

The proposed book expertly combines the finest data mining material from the Morgan Kaufmann portfolio. Individual chapters are derived from a select group of MK books authored by the best and brightest in the field. These chapters are combined into one comprehensive volume in a way that allows it to be used as a reference work for those interested in new and developing aspects of data mining.

This book represents a quick and efficient way to unite valuable content from leading data mining experts, thereby creating a definitive, one-stop-shopping opportunity for customers to receive the information they would otherwise need to round up from separate sources.

- Chapters contributed by various recognized experts in the field let the reader remain up to date and fully informed from multiple viewpoints.
- Presents multiple methods of analysis and algorithmic problem-solving techniques, enhancing the reader's technical expertise and ability to implement practical solutions.
- Coverage of both theory and practice brings all of the elements of data mining together in a single volume, saving the reader the time and expense of making multiple purchases.

From reader reviews:

Nancy Adams:

Now a day individuals who Living in the era where everything reachable by talk with the internet and the resources inside can be true or not call for people to be aware of each data they get. How people have to be smart in having any information nowadays? Of course the correct answer is reading a book. Looking at a book can help men and women out of this uncertainty Information particularly this Data Mining: Know It All book because book offers you rich data and knowledge. Of course the knowledge in this book hundred percent guarantees there is no doubt in it everbody knows.

Freddy Lamberth:

This Data Mining: Know It All tend to be reliable for you who want to be a successful person, why. The main reason of this Data Mining: Know It All can be one of several great books you must have is giving you more than just simple studying food but feed you actually with information that probably will shock your earlier knowledge. This book is actually handy, you can bring it almost everywhere and whenever your conditions at e-book and printed ones. Beside that this Data Mining: Know It All forcing you to have an enormous of experience for instance rich vocabulary, giving you tryout of critical thinking that we know it useful in your day task. So , let's have it and enjoy reading.

Candy Dixon:

The particular book Data Mining: Know It All has a lot of knowledge on it. So when you check out this book you can get a lot of help. The book was published by the very famous author. Tom makes some research prior to write this book. This particular book very easy to read you will get the point easily after looking over this book.

Yvette Barstow:

Your reading sixth sense will not betray you actually, why because this Data Mining: Know It All reserve written by well-known writer who really knows well how to make book that could be understand by anyone who else read the book. Written inside good manner for you, dripping every ideas and publishing skill only for eliminate your own personal hunger then you still question Data Mining: Know It All as good book not just by the cover but also by content. This is one reserve that can break don't determine book by its cover, so do you still needing one more sixth sense to pick this!? Oh come on your studying sixth sense already said so why you have to listening to one more sixth sense.
