Radiography in Veterinary Technology Lisa M. Lavin

Written by a veterinary technician for veterinary technicians, students, and veterinary practice application, this concise, step-by-step text will help users consistently produce excellent radiographic images. It covers the physics of radiography, the origin of film artifacts, and positioning and restraint of small, large, avian, and exotic animals. It discusses everything from patient preparation, handling, and positioning to technical evaluation of the finished product.

- 500 illustrations and abundant charts and diagrams
- Explicit, clear patient positioning guidelines, including where to collimate, anatomical landmarks, drawings of the animal positioned, and the resulting radiograph
- A radiographic technique chart that shows how to troubleshoot radiographic quality
- Boxed outlines that provide a concise, ready reference regarding technique in the section on special radiographic procedures
- A guide to quality control (including tests)
- A special procedure guide, including how to use contrast media
- A chart on how to develop a technique guide
- Chapter outlines, glossaries, and references
- Case studies that illustrate artifacts
- Key points and review questions follow every chapter
- A new chapter on digital veterinary radiography

From reader reviews:

Samantha Campbell:

People live in this new day time of lifestyle always try to and must have the time or they will get wide range of stress from both day to day life and work. So , once we ask do people have time, we will say absolutely indeed. People is human not only a robot. Then we inquire again, what kind of activity are you experiencing when the spare time coming to a person of course your answer can unlimited right. Then do you ever try this one, reading textbooks. It can be your alternative within spending your spare time, the actual book you have read is definitely Radiography in Veterinary Technology.

Samuel Travis:

Are you kind of occupied person, only have 10 or 15 minute in your time to upgrading your mind proficiency or thinking skill even analytical thinking? Then you are receiving problem with the book compared to can satisfy your short space of time to read it because all of this time you only find book that need more time to be examine. Radiography in Veterinary Technology can be your answer since it can be read by an individual who have those short spare time problems.

Rosemarie Cleveland:

This Radiography in Veterinary Technology is new way for you who has intense curiosity to look for some information because it relief your hunger details. Getting deeper you on it getting knowledge more you know or perhaps you who still having tiny amount of digest in reading this Radiography in Veterinary Technology can be the light food for you personally because the information inside this specific book is easy to get by simply anyone. These books acquire itself in the form which can be reachable by anyone, that's why I mean in the e-book web form. People who think that in e-book form make them feel even dizzy this reserve is the answer. So there is absolutely no in reading a guide especially this one. You can find actually looking for. It should be here for an individual. So , don't miss that! Just read this e-book kind for your better life and also knowledge.

Bernice Martinez:

As a university student exactly feel bored to be able to reading. If their teacher questioned them to go to the library as well as to make summary for some reserve, they are complained. Just small students that has reading's heart or real their leisure activity. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that examining is not important, boring along with can't see colorful photographs on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Radiography in Veterinary Technology can make you really feel more interested to read.
