Vietnam: Anatomy of a Peace

Gabriel Kolko

Vietnam: Anatomy of a Peace Gabriel Kolko

Vietnam has experienced huge political and economic development since the war. In *Anatomy of a Peace*, Gabriel Kolko looks at the main economic phases the Communist Party has embarked upon since 1986 and outlines the transition to nascent capitalism. He also explores Vietnam's relations to its neighbours and the US in the light of social and psychological national features.

Based on extensive research and over 30 years first hand experience, *Anatomy of a Peace* is a timely examination of recent history and developing economies in Asia. Gabriel Kolko argues that neither an intentional socialist or market strategy have determined recent Vietnamese history and, in fact, the Communist Party has little control over development during peace time.
