Boat Navigation for the Rest of Us: Finding Your Way By Eye and Electronics Bill Brogdon

"Thorough treatment of traditional and electronic [sailing] methods by an expert."--*WoodenBoat*

Want a full course in navigation? A whole toolbox of little-known tips and shortcuts to deal with real-life navigation situations without resorting to a slide rule? You get both in *Boat Navigation for the Rest of Us*, second edition, a guide to pleasureboat navigation that shows you how to combine electronic aids like radar and GPS with visual observations, simple chartwork, and common-sense piloting. In plain, simple language, it explains how to find where you are and get where you want to go with a minimum of fuss. You'll find many little-known, low-tech methods specifically designed for use aboard small powerboats and sailboats. This edition brings you up to speed on the many changes to navigation systems and equipment that have occurred over the past six years, including dramatic improvement in GPS accuracy, the proliferation of electronic charts and plotting systems, and the growing importance of the Internet as a navigation tool.

From reader reviews:

Michael Duckett:

Information is provisions for folks to get better life, information currently can get by anyone in everywhere. The information can be a information or any news even a problem. What people must be consider while those information which is inside the former life are hard to be find than now could be taking seriously which one works to believe or which one the particular resource are convinced. If you obtain the unstable resource then you have it as your main information you will have huge disadvantage for you. All those possibilities will not happen throughout you if you take Boat Navigation for the Rest of Us: Finding Your Way By Eye and Electronics as the daily resource information.

Patricia Ables:

People live in this new morning of lifestyle always attempt to and must have the time or they will get great deal of stress from both everyday life and work. So , if we ask do people have time, we will say absolutely sure. People is human not just a robot. Then we ask again, what kind of activity do you have when the spare time coming to anyone of course your answer will unlimited right. Then do you ever try this one, reading textbooks. It can be your alternative throughout spending your spare time, the actual book you have read is usually Boat Navigation for the Rest of Us: Finding Your Way By Eye and Electronics.

Leigh Harris:

This Boat Navigation for the Rest of Us: Finding Your Way By Eye and Electronics is great book for you because the content that is full of information for you who also always deal with world and get to make decision every minute. That book reveal it details accurately using great arrange word or we can say no rambling sentences within it. So if you are read it hurriedly you can have whole facts in it. Doesn't mean it only provides straight forward sentences but hard core information with splendid delivering sentences. Having Boat Navigation for the Rest of Us: Finding Your Way By Eye and Electronics in your hand like keeping the world in your arm, information in it is not ridiculous one. We can say that no publication that offer you world with ten or fifteen small right but this book already do that. So , this can be good reading book. Hi Mr. and Mrs. active do you still doubt which?

Tessa Krieger:

Is it you actually who having spare time in that case spend it whole day simply by watching television programs or just telling lies on the bed? Do you need something new? This Boat Navigation for the Rest of Us: Finding Your Way By Eye and Electronics can be the response, oh how comes? The new book you know. You are so out of date, spending your extra time by reading in this brand-new era is common not a geek activity. So what these publications have than the others?
