Reality and Education: A New Direction for Educational Policy Daniel Wentland

A poorly designed system produces poor results. Problems with the public education system are reported every day in periodicals and books. Improving student achievement is too important a societal issue to continue stumbling along the same unending path of let's try this educational fad and then move to the next proposed solution.

The uniqueness of this book is that the myths surrounding education and learning are exposed; it's like cleaning the lenses of your glasses so you can get a clear view of the world. Once myths are moved aside, reality can settle in, and a practical model for improving education can be developed.

Verna Krell:

As a pupil exactly feel bored in order to reading. If their teacher expected them to go to the library as well as to make summary for some publication, they are complained. Just very little students that has reading's heart or real their passion. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading significantly. Any students feel that looking at is not important, boring and also can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this Reality and Education: A New Direction for Educational Policy can make you really feel more interested to read.
