The Serial: A Year in the Life of Marin County Cyra McFadden

To mark 35 years since *The Serial* first satirized the silliness of 1970s California, the bestselling novel is back, with new artwork, bonus features, interviews and reviews from the time, plus a new preface by author Cyra McFadden. A comic send up of the 1960s Californian lifestyle - personal growth, human life styling and living together relationships. Kate and Harvey Holroyd try to stay hip and loose through a welter of lentil loaves, natural fibres, enzymes and Zen jogging. From the author of "Rain or Shine".

Set at the very epicentre of the self-obsessed 1970s, when everyone talks (without ever saying anything) in the psychobabble of faddish self-help manuals, it's the most sophisticated, liberated, high energy, naturally organic and hilarious adult soap opera ever!
